

Coronavirus Vaccines Deception

One of the enemy's tactics is to rush, rush, rush. When that happens, slow down, pray and let God help you investigate. We are living in all eternity and there is no need to make hasty decisions.

The coronavirus vaccines were being rushed and pushed forward. I felt uncomfortable, even after I made a decision to decline Pfizer & Biotech vaccine at the retirement community, I live in, due to avoiding the pro-life debate about using "cell line" derived from aborted baby. So I investigated more.

The "secular" document,

Concern about Coronavirus Vaccines

<http://www.ooylt.info/OtherArticles/Vaccine.pdf>

summarizes my finding.

Is there a spirit of death floating with Pfizer/Biotech and Moderna vaccines. Take a look at

VaccineDeaths

<https://vaccinedeaths.com>

Is the deaths caused by a few people whom should not be vaccinated OR is there too many deaths? I think the latter.

Is the spirit of death due to using "cell line" from an aborted fetus? Or is from using mRNA? Or is it from something else? Right now (2/7/21), we do not have enough data because other vaccines are still in development. I hope to investigate more as more vaccines are being used.

In the natural, the debate about using vaccines made with "cell line" from aborted fetus long ago seems silly. There is a good chance that you used shingle, flu, and other vaccines that has "cell line" from aborted fetus. In the spiritual, is something sinister happening? Is the use of "cell line" from aborted fetus and/or mRNA is causing the spirit of death?

In the natural, I am looking closely at Novavax vaccine, which is protein-based, for myself. In the spiritual, I am concerned. Novavax vaccine is a mixed bag. The vaccine,

itself, does not contain “cell line” from an aborted fetus, but it was tested on “cell line” from an aborted fetus.

Raymond
